

# Community Engagement

enfinium is one of the largest energy from waste operators in the UK, helping to power homes, business and the circular economy.

We work with our local communities through outreach, donations, grants, sponsorship, volunteering and charity work to drive positive engagement.

enfinium currently operates in five areas across England and Wales, and we have enhanced our community commitment to drive positive enhancements within these local communities. If you have an initiative that could be supported through enfinium community funding and volunteering, please reach out to us.

## Volunteering

Our employees are keen to donate time to local charities in our communities. If your organisation could benefit from volunteering, please contact [volunteering@enfinium.co.uk](mailto:volunteering@enfinium.co.uk).

## Community Funding

**enfinium can support:**

- registered charities
- schools
- places of learning
- not for profit organisations (including those supported by public funding)

**for any one of the following causes:**

- the environment (for example the promotion of clean energy, waste reduction and/or recycling improvement)
- education
- improved standards of health, safety and wellbeing
- social inclusion and community wellbeing
- young people
- the enhancement of the wider community (including skills and educational development, environmental improvements and activities that improve community cohesion).

## What is the criteria?

Applications must demonstrate that their project and/or organisation's work:

- is aligned with our supported causes (set out above)
- supports people and/or communities that live in or around the areas in which we operate (usually within a 10-15-mile radius of the following locations):
  - » **Ferrybridge, Knottingley, Yorkshire WF11 8DX**
  - » **Kemsley, Sittingbourne, Kent ME10 2FP**
  - » **Parc Adfer, Deeside, Flintshire CH5 2LL**
  - » **Skelton Grange, Leeds, Yorkshire LS10 1FQ**
  - » **Kelvin, West Bromwich, West Midlands B70 7JR**

Organisations outside of these areas are eligible to apply, as long as they can prove how the award of funding will have a beneficial impact on our host communities.

In addition, applications will need to:

- be for specific projects or initiatives and not general requests to support day-to-day running costs, pay salaries or pay for reserve funding
- not involve sponsorship of an individual or advertising
- be for funds that would fall outside of the normal local authority or government funding responsibilities.

### How to apply for the enfinium Community Fund

You'll find more information on our Community funding page: [www.enfinium.co.uk/esg/community-funding](http://www.enfinium.co.uk/esg/community-funding) and our [application form](#).

Please email [communityfunding@enfinium.co.uk](mailto:communityfunding@enfinium.co.uk) if you have any queries, or to return any completed application forms.
